St Gregory's Curriculum Learning Journey

St Gregory's mission states that 'Our aim as an inspirational Catholic school is to grow, love and celebrate together, following in the footsteps of Christ. We nurture and promote a love of learning with Jesus as our guide by creating a globally minded family of safe compassionate and lifelong learners.'

We deliver our curriculum to develop kind, caring citizens through the Catholic teachings. We believe in helping our children to see a world beyond their own and having high aspirations. We have constructed a curriculum which provides experiences beyond the academia, encouraging all children to find a love for learning. We want to shape our pupils into happy, resilient, life-long learners.
