Multiplication tables - games for your tablet

These are the multiplication tables websites and apps that we use on our school ipads for learning times tables. You could also download them for use at home.

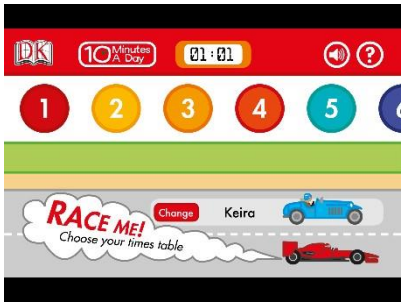

Hit the Button

Children answer quick questions to practice x and ÷ facts.
Simple and effective format.
You can choose a multiplication table or mixed multiplication tables questions.
Also covers doubles, halves and number bonds.

Squeebles Times Tables 2
Children answer x tables questions to win stars.
Includes a 'training' mode to teach multiplication tables. Also includes simple games which children can play by trading their stars, which can be a distraction or a reward!

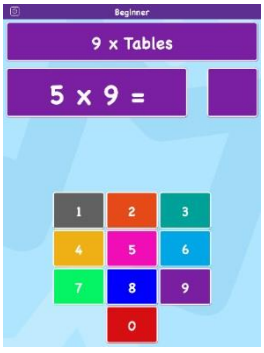

DK 10 minutes a day times tables
Children answer multiplication tables questions.
Set up in a progressive order, beginning with x tables facts in order, then moving on to random and missing number questions.
Racing car format encourages speed of recall.

Percy Parker

This app plays a song for each multiplication table.

Maths Rockx
In the quiz section children answer x tables facts.
You can also purchase a song to learn each multiplication table.
